

GLOBAL SANCTUARIES!

Here at this time of Spring Equinox balance, I feel the magic is thick. Maybe it's because...

- I have really understood the magical implications and opportunities of the time travel between hemispheres that I'm doing now...
- maybe it's the energy of the eclipse season just past and still influencing us...
- maybe it's because I feel like I'm really leaning into the [Maga life season](#)...
- Whatever, I feel a new dream is coming and I feel like the dream is dreaming me!

Two of the new or enhanced abilities of the post menopausal woman are **increased intuition and visionary capacity** – and with my time travel, I have seen the harvest ahead and so then I have access to a deeper knowing of what the seed and seedling needs to get there.

Private Hospital

For example, I see the seedling of our own '[private hospital](#)' and I know this is not the only one....

Earlier this year at the [Seven Sisters Festival](#) in Melbourne, Australia, I presented a session with [Rhea Dempsey](#). We called it *Birth in the Dystopia*. Rhea and I will be presenting again on this subject at the [Homebirth Conference](#) in Sydney in November.

Part of the session at Seven Sisters was a journey for the participants to meet with their Great-Great-Grandchildren to ask them what they needed to do now to prepare for them, especially regarding their opportunities for birthing.

And since then, of course, I too have been receiving messages from the Great-Great-Grandchildren. These messages come to me in the form of dreams for the future, my dreams for the Great-Great-Grandchildren.

Global Sanctuaries & the Grandmother's Pact

I am dreaming of Global Sanctuaries, one on each continent...

Sanctuaries that offer a safe birthplace, an education facility, food grown in the old ways with saved seeds, self sustained villages...

And to bring this into this reality, I am feeling we need: The Grandmother's Pact!

A global circle of Grandmothers working with the energies of creation to bring forth Global Sanctuaries, villages where the Great-Great-Grandchildren will thrive.

A part of me feels this to be **such an audacious dream**, and questions arise such as - how?! But because I know the importance of the why, and because **I feel my Grandmother heart race with Joy** at the idea of preparing for the future for all our relations, especially the Great-Great-Grandchildren, and even further to the seven generations ahead... I will let go of my own feelings of fear and doubt and I will play my part in this....

A plan!

Now I'm not attached to this particular plan, but this time I am attached to the outcome. The outcome is to set up for the Great-Great-Grandchildren **self-sustainable villages**, including a birth centre and education facility which teaches the practical arts of living including healing, health care, and everything you need to know to look after yourself and your children.

At [Yonifest](#), I met a special woman, a doctor midwife, from Mexico and we felt this dream begin to dream us. The Grandmother's Pact and maybe the **first Sanctuary in Mexico...**

I also connected again, after four years since the **Squatfest** in San Francisco, with the awesome [Molly Dutton-Kenny](#) who has inspired me to begin to imagine offering a Full Spectrum Doula Training Program. And [Samantha Zipporah](#), who introduced me, [Sequoia](#) and [Grace](#) to the Ovary Gang.

I'm going to dream big, for all our relations, because I care.
