

Homeopathic Placental Remedy

The Recipe (print version) Please visit [HERE](#) before preparing

When I am with a family and we are starting the process of making the remedy, I always say what was said to me, and that is –

When you start this process you unlock the healing powers of placenta.

This may be felt in a huge variety of individual ways.

Select a piece of the placenta

Quite your mind and feel into which is the right piece to choose, just tear it off rather than using a knife or scissors. Choose a piece about the size of a match head.

Add the placenta to the brandy

Say a piece of placenta the size of a match head to 90 mls of Brandy.

(You can use Brandy, whisky, vodka, ethanol etc)

Sit for 3 days, or longer (in a brown glass bottle or a covered bottle/jar in a cool, dark place)

Use 1 drop of this mixture and add to 99 drops of brandy

Discard original mixture with the placenta in it.

Succuss 100 times

Put mixture in a well sealed glass bottle and bash firmly against a phonebook (or the palm of your hand) 100 times, be focused on your task.

This now creates the **1C MOTHER TINCTURE**.

The 1C Mother Tincture

To prepare 5C, make 2C from 1C by:

Use 1 part of 1C and add to 99 parts brandy

Succuss 100 times = 2C

Use 1 part of 2C and add to 99 parts brandy

Succuss 100 times = 3C

Use 1 part of 3C and add to 99 parts brandy

Succuss 100 times = 4C

Use 1 part of 4C and add to 99 parts brandy

Succuss 100 times = 5C

Use 1 part of 5C and add to 99 parts brandy

Succuss 100 times = 6C

5 drops = one dose

.....

Application:

This will be a constitutional remedy for the baby throughout her/his life. It could be used for many/any constitutional or unusual ailments (except) when specific remedy is appropriate eg arnica for bruising). The placenta contains stem cells so this remedy will be a very good immune remedy.

The placenta contains all one's strengths and weakness so treating the individual with this remedy will provide balance when there is imbalance.

Disclaimer

The creation, administration and dosage of the Homeopathic Placental Remedy is something that each family must take complete responsibility for. We act here at this website simply as information disseminators and collectors.

We offer all this to the best of our ability without prescription or advocacy.

You the parent choosing to create the remedy must do so at your own risk, in other words, take full responsibility for your actions.
